PROFESSIONAL SUMMARY

BCA Cloud Computing graduate with practical experience in SQL, Python, Excel, Power BI, MySQL, data cleaning, validation, preprocessing, reporting, and backend data processing. Familiar with structured data management, database operations, testing, troubleshooting, DBMS, basic statistics, exploratory data analysis, and data visualization. Seeking an entry-level Data Analyst opportunity to apply analytical and technical skills to business data.

CORE SKILLS

- **Data Analytics:**Data Analysis, Data Cleaning, Data Validation, Exploratory Data Analysis (EDA), Data Preprocessing, Data Visualization, Reporting, Basic Statistics
- **SQL & Databases:**SQL, MySQL, Relational Databases, CRUD Operations, Database Testing
- **Programming:**Python, Pandas, NumPy, Matplotlib, Scikit-learn
- **BI & Tools:**Microsoft Excel, Power BI, Tableau, Git, VS Code, phpMyAdmin
- **Cloud:**Microsoft Azure, AWS Fundamentals, Google Cloud Fundamentals

INTERNSHIP EXPERIENCE

Website Management & Backend Processing Intern — Raavy Groups, Bangalore

- Maintained website content, course information, web pages, and enquiry forms supporting lead-generation activities.
- Organized student and enquiry records in MySQL and handled CRUD operations and database maintenance.
- Performed data validation, database testing, troubleshooting, and backend processing using PHP and MySQL.
- Worked with REST APIs and JSON for backend data processing and integration.

PROJECT

Online Exam Portal — PHP, MySQL, HTML, CSS, JavaScript

- Developed an online examination platform to manage students, administrators, exams, questions, and results.
- Designed and maintained relational MySQL tables for student, exam, question, and result data.
- Implemented registration, login, an admin panel, an examination timer, and automated result processing.
- Conducted database testing, data validation, troubleshooting, and CRUD operations using Laragon and phpMyAdmin.

Sales Data Analysis Using Python | Python, Pandas, Matplotlib

- Analyzed sample sales data to calculate revenue, units sold, unique orders, and average order value.
- Compared product, monthly, and category-level sales; generated charts using Matplotlib.
- Created a business insights report with findings, recommendations, and dataset limitations.

EDUCATION

BCA — Cloud Computing | Acharya Institute of Graduate Studies, Bengaluru | Graduated May 2026 | CGPA: 8.03/10

Relevant Areas: Data Analytics, Python, DBMS, Cloud Computing, Machine Learning, Computer Networks, Operating Systems

CERTIFICATIONS

- Microsoft Certified: Azure Developer Associate (AZ-204)
- Systems and Application Security — $(ISC)^2$ Education & Training / Coursera, Feb 2024

ADDITIONAL

- **Soft Skills:**Analytical Thinking, Problem Solving, Attention to Detail, Data Accuracy, Time Management, Quick Learning, Team Collaboration, Communication
- **Languages:**English, Malayalam, Tamil
